last updated 07/2013

Most of the popular touristic sights in Paris are found in the central sections (arrondissements) of Paris (1, 2, 3, 4, 5, 6, or 7) or near Montmartre (18th arrondissement). All of the attractions are fairly easily accessible from any location in Paris thanks to the well-developed subway system (the metro). The following lodgings are classed in order from less to more expensive.

For international dialing, the country code for France is 33. Drop the zero at the beginning of the telephone number, then dial 00 or +, the country code, and the number beginning with 1.
